SUBJECT INDEX

A

Acquired immune deficiency syndrome (AIDS)
  cardiac manifestations of, 124
Amiodarone, 113
Arrhythmia(s)
  pill electrode esophageal
    electrocardiography in diagnosis of, 10
Arterial switch operation
  for transposition of the great arteries
    with intact ventricular septum
  management of neonate after, 89

C

Cardiac surgery
  pediatric
    risk factors for pressure ulcers after, 99
Child(ren). *See also* Newborn(s)
  heart transplantation in
    family stresses after, 23
  open-heart surgery in
    risk factors for pressure ulcers after, 99
Cholesterol. *See also* Hypercholesterolemia
  marine lipids and, 119
Clinical trial(s)
  nurses' role in, 138
Coronary angioplasty
  restenosis after
    marine lipids and, 119
Coronary heart disease
  marine lipids in management of, 119

D

Depression
  after myocardial infarction
    cognitive model of, 61
Diet
  modifications of, in hyperlipidemia treatment, 131

E

Education
  critical care
    permanent visual display exhibits for, 28
  master's programs in nursing, with cardiovascular
    nursing specialization, 111
Elderly
  isolated systolic hypertension in
    nurses' role in clinical trials of therapy
      for, 138
Electrocardiography
  esophageal
    pill electrode for, 10

F

Family
  stresses on, after pediatric heart transplantation, 23
Fish oil(s). *See* Marine lipid(s)

H

Heart transplantation
  pediatric
    family stresses after, 23
  prolonged mechanical support prior to
    nursing care during, 1
  ventricular assist device use after, 77
Hypercholesterolemia
  causes, significance and diagnosis of, 33
  prevention and control of, 40
Hyperlipidemia
  nutritional intervention in, 131
Hypertension
  isolated systolic, in elderly
    nurses' involvement in clinical trials of therapy
      for, 138

I

Infant(s). *See* Child(ren); Newborn(s)

J

Jatene procedure. *See* Arterial switch operation

M

Marine lipid(s)
  restenosis after coronary angioplasty and, 119
  role in coronary artery disease treatment, 119

SUBJECT INDEX

A

Acquired immune deficiency syndrome (AIDS)
  cardiac manifestations of, 124
Amiodarone, 113
Arrhythmia(s)
  pill electrode esophageal
    electrocardiography in diagnosis of, 10
Arterial switch operation
  for transposition of the great arteries
    with intact ventricular septum
  management of neonate after, 89

C

Cardiac surgery
  pediatric
    risk factors for pressure ulcers after, 99
Child(ren). *See also* Newborn(s)
  heart transplantation in
    family stresses after, 23
  open-heart surgery in
    risk factors for pressure ulcers after, 99
Cholesterol. *See also* Hypercholesterolemia
  marine lipids and, 119
Clinical trial(s)
  nurses' role in, 138
Coronary angioplasty
  restenosis after
    marine lipids and, 119
Coronary heart disease
  marine lipids in management of, 119

D

Depression
  after myocardial infarction
    cognitive model of, 61
Diet
  modifications of, in hyperlipidemia treatment, 131

E

Education
  critical care
    permanent visual display exhibits for, 28
  master's programs in nursing, with cardiovascular
    nursing specialization, 111
Elderly
  isolated systolic hypertension in
    nurses' role in clinical trials of therapy
      for, 138
Electrocardiography
  esophageal
    pill electrode for, 10

F

Family
  stresses on, after pediatric heart transplantation, 23
Fish oil(s). *See* Marine lipid(s)

H

Heart transplantation
  pediatric
    family stresses after, 23
  prolonged mechanical support prior to
    nursing care during, 1
  ventricular assist device use after, 77
Hypercholesterolemia
  causes, significance and diagnosis of, 33
  prevention and control of, 40
Hyperlipidemia
  nutritional intervention in, 131
Hypertension
  isolated systolic, in elderly
    nurses' involvement in clinical trials of therapy
      for, 138

I

Infant(s). *See* Child(ren); Newborn(s)

J

Jatene procedure. *See* Arterial switch operation

M

Marine lipid(s)
  restenosis after coronary angioplasty and, 119
  role in coronary artery disease treatment, 119

Mechanical circulatory support. *See also* Ventricular assist device
  prolonged
    nursing care of patient during, 1
Midazolam (Versed)
  for controlled sedation, 85
Myocardial infarction
  depression after
    cognitive model of, 61
  marital functioning after, 71
  spouses' psychosocial problems and adjustments after, 71

N

Newborn(s)
  arterial switch operation for simple transposition of great arteries in
    postoperative management, 89
Notices, 70, 98, 146

P

Pacemaker(s)
  temporary A-V sequential
    programming and troubleshooting for, 49
Pacing
  esophageal pill electrode for, 10
  transcutaneous, 18
Pill electrode
  esophageal electrocardiography using, 10
Pressure ulcer(s)
  risk factors associated with, after pediatric open-heart surgery, 99

R

Research
  data collection by telephone in, 107

S

Sedation
  controlled
    midazolam for, 85
Spouse(s)
  psychosocial problems and adjustments of, after myocardial infarction, 71
Systolic Hypertension in the Elderly Program
  implications for nursing practice and research, 138

T

Telephone
  data collection by, 107
Transposition of great arteries
  arterial switch operation for
    management of neonate after, 89

V

Ventricular assist device
  centrifugal
    use after heart transplantation, 77
  prolonged use of
    nursing care during, 1
Versed. *See* Midazolam
Visual display exhibit(s)
  permanent
    for supplemental critical care education, 28
